Join people of faith and community members across Virginia to engage in a deep conversation about environmental justice. As we work together to repair our damaged climate, we must make sure that everyone most impacted – including low-income people, people of color, the vulnerable, and those on the frontlines – is part of every solution.

*About the forum's moderators:* William Barber, III, is the Strategic Partnerships Associate at The Climate Reality Project. He is the son of Rev. Dr. William Barber, II. Karenni Gore is the founding director of the Center for Earth Ethics at Union Theological Seminary. She is the eldest daughter of former Vice President Al Gore.

Representing more than 70 congregations in the Northern Virginia area, FACS advocates for equitable climate policies in Northern Virginia and in the Commonwealth. We empower and unite neighbors of all faiths to develop local solutions to the climate crisis. FACS is a 501(c)(3) non-partisan organization.
