Subject: Ahead of Atlanta Debate - Georgia Voters Say Environment and Climate Change Are Priority, Support Clean Energy

Date: November 18, 2019

Ahead of the fifth 2020 Democratic debate in Atlanta, a new Public Policy Polling survey finds that environmental and climate issues are very important to a majority (53%) of Georgia voters. Only 13% think the environment and climate change are not important at all. Among Democrats, 81% think the environment and climate change are the most or very important issues.

A majority of Georgia Democrats (61%) support moving to 100% clean energy, such as solar and wind energy, by 2050, while only 13% are opposed.

Democratic voters in Georgia also disapprove of the job President Trump is doing on the environment and climate change issues, with 83% disapproving and only 9% approving.

African American voters in Georgia also support clean energy and climate action by wide margins. In the poll, 83% of African American voters said the environment and climate change is an important issue, and 69% support setting a new national clean energy standard that would require a majority of our electricity to come from clean and renewable energy sources like solar and wind power.

ON THE ISSUES

On individual issues surrounding the environment and climate change among Georgia Democrats:

- 84% say they are more likely to vote for a candidate who pledges to make the environment and climate change a top issue in their administration, and prioritize policies to move the United States to a 100% clean energy economy.

- 83% support restoring environmental rules that stop polluters from putting toxins in the water and air.
- 80% say they are more likely to support a candidate who makes addressing climate change a top priority and has a detailed plan including reducing carbon pollution.
- 79% say they are more likely to support a candidate who has a climate change plan that makes communities most affected by pollution a priority, including lower income communities and communities of color.
- 70% support using federal funds to combat the climate crisis and invest in efforts to make communities more resilient to the impacts of climate change.
- 69% support setting a new national clean energy standard that would require a majority of electricity generation to come from clean and renewable sources like solar and wind power.
- 66% supporting banning campaign donations from big oil, other fossil fuels and the utility companies.

CLIMATE ACTION

Georgia Democrats find five reasons to act on climate change convincing:

- Climate change is a public health emergency, with polluters releasing toxic chemicals that increase the risk of asthma attacks and heart disease nationwide each year. 84% find this a convincing reason to act on climate change.
- Public health experts say climate change threatens the quality of the air and water, putting harmful pollutants in the air and fueling outbreaks of toxic algae. 83% find this a convincing reason to act.
- In the past two years, more than 3,000 Americans died in climate-related disasters, and extreme weather is expected to get worse. 81% find this a convincing reason to act on climate change.

- Once rare events like “500-year floods” are happening regularly and the sea-level will rise, endangering Georgia’s coastline. 81% find this a convincing reason to act on climate change.
- China and other countries have started responding to climate change and growing their clean energy sector at a much faster rate than the US. 69% find this argument for climate action convincing.

OTHER KEY FINDINGS

Climate change and the environment are key issues for Democrats, but Georgia voters overall also support clean energy and taking action on climate change. By 23 points (52-29), Georgia voters support setting a new national clean energy standard requiring a majority of electricity to come from clean and renewable energy, and by 13 points (44-31) voters support moving to 100% clean energy by 2050.

Additionally:

- By 65 points (75-10), overall Georgia voters support restoring rules that stop polluters from putting toxins in the air and water, while just 10% are opposed.
- By 33 points (55-22), voters support a ban on campaign donations from big oil, fossil fuels, and utility companies.
- 54% of voters are more likely to support a candidate who makes climate change a top priority and has a detailed plan including reducing carbon pollution.
- President Trump’s approval is 10 points underwater on issues involving the environment and climate change: 49% disapprove while only 39% approve.

PPP surveyed 820 Georgia voters from November 12-13, 2019. The margin of error is +/- 3.4%. 70% of interviews for the survey were conducted by telephone and 30% by text message. The poll was conducted on behalf of LCV.

Georgia Survey Results

Q1 Do you think the environment and climate change is the most important issue, a very important issue, a somewhat important issue, not a very important issue, or not an important issue at all?

<i>Most important issue</i>	16%
<i>Very important issue</i>	37%
<i>Somewhat unimportant issue</i>	24%
<i>Not an important issue at all</i>	13%
<i>Not sure</i>	10%

Q2 Do you approve or disapprove of the job President Trump is doing on environment and climate change issues?

<i>Approve</i>	39%
<i>Disapprove</i>	49%
<i>Not sure</i>	11%

Q3 Which party do you trust more when it comes to the environment and climate change: Democrats, or Republicans?

<i>Trust Democrats more</i>	49%
<i>Trust Republicans more</i>	42%
<i>Not sure</i>	9%

Q4 Do you support or oppose moving to 100% clean energy, such as solar and wind energy, by 2050?

<i>Support</i>	44%
<i>Oppose</i>	31%
<i>Not sure</i>	25%

Q5 Do you support banning campaign donations from big oil, other fossil fuels and the utility companies, or do you think politicians should be allowed to take their money?

<i>Support banning campaign donations from big oil, other fossil fuels and the utility companies</i>	55%
<i>Think politicians should be allowed to take their money</i>	22%
<i>Not sure</i>	23%

Q6 Do you support or oppose restoring rules that stop polluters from putting toxins in the water and air?

<i>Support</i>	75%
<i>Oppose</i>	10%
<i>Not sure</i>	16%

Q7 Do you support or oppose setting a new national clean energy standard that would require a majority of our electricity to come from clean and renewable energy sources like solar and wind power?

<i>Support</i>	52%
<i>Oppose</i>	29%
<i>Not sure</i>	19%

Q8 Do you support or oppose the use of federal funds to combat the climate crisis and invest in efforts to make communities more resilient to the impacts of climate change

<i>Support</i>	50%
<i>Oppose</i>	32%
<i>Not sure</i>	18%

Q9 Would you be much more likely, somewhat more likely, somewhat less likely, or much less likely to vote for a candidate who makes addressing climate change a top priority and has a detailed plan including reducing carbon pollution that he or she can begin on day one, or would it not make a difference?

<i>Much more likely</i>	31%
<i>Somewhat more likely</i>	23%
<i>Somewhat less likely</i>	12%
<i>Much less likely</i>	22%
<i>Wouldn't make a difference</i>	8%
<i>Not sure</i>	4%

Q10 Would you be much more likely, somewhat more likely, somewhat less likely or much less likely to vote for a candidate who has a climate change plan that makes communities most affected by pollution his or her priority including lower income communities and communities of color, or would it not make a difference?

<i>Much more likely</i>	34%
<i>Somewhat more likely</i>	20%
<i>Somewhat less likely</i>	10%
<i>Much less likely</i>	17%
<i>Wouldn't make a difference</i>	11%
<i>Not sure</i>	7%

Q11 Would you be much more likely, somewhat more likely, somewhat less likely or much less likely to vote for a candidate who pledges to make the environment and climate change a top issue in their administration and they will put a priority on policies to move the United States to a 100% clean energy economy, or would it not make a difference?

<i>Much more likely</i>	31%
<i>Somewhat more likely</i>	24%
<i>Somewhat less likely</i>	8%
<i>Much less likely</i>	23%
<i>Wouldn't make a difference</i>	10%
<i>Not sure</i>	4%

Q12 There are a variety of reasons to take action to reduce climate change. I'm going to read you a few of them and please tell me if you find it very convincing, fairly convincing, somewhat convincing, not that convincing, or not convincing at all. Here's the first one: In the past two years, more than 3,000 Americans died in climate-related disasters. Extreme weather is already taking a deadly toll on communities across the country and it's expected to get worse. Do you find this reason very convincing, fairly convincing, somewhat convincing, not that convincing, or not convincing at all to take actions to reduce climate change?

<i>Very convincing</i>	31%
<i>Fairly convincing</i>	19%
<i>Somewhat convincing</i>	11%
<i>Not that convincing</i>	16%
<i>Not convincing at all</i>	20%
<i>Not sure</i>	3%

Q13 Here's the next one: Climate change is a public health emergency - with polluters releasing toxic chemicals that increase the risk of asthma attacks and heart disease nationwide each year. Do you find this reason very convincing, fairly convincing, somewhat convincing, not that convincing, or not convincing at all to take actions to reduce climate change?

<i>Very convincing</i>	38%
<i>Fairly convincing</i>	16%
<i>Somewhat convincing</i>	14%
<i>Not that convincing</i>	11%
<i>Not convincing at all</i>	18%
<i>Not sure</i>	3%

Q14 Here's the next one: China and other countries have started responding to climate change and are growing their clean energy sector at a much faster rate than the U.S. In 2017, China added more solar energy in a single year than existed in the entire United States. Do you find this reason very convincing, fairly convincing, somewhat convincing, not that convincing, or not convincing at all to take actions to reduce climate change?

<i>Very convincing</i>	37%
<i>Fairly convincing</i>	13%
<i>Somewhat convincing</i>	16%
<i>Not that convincing</i>	13%
<i>Not convincing at all</i>	19%
<i>Not sure</i>	2%

Q15 Here's the next one: Public health experts say climate change threatens the quality of the air we breathe and the water we drink – putting harmful pollutants in the air and fueling outbreaks of toxic algae like the outbreak this summer that killed peoples' dogs swimming in Georgia lakes. Do you find this reason very convincing, fairly convincing, somewhat convincing, not that convincing, or not convincing at all to take actions to reduce climate change?

<i>Very convincing</i>	40%
<i>Fairly convincing</i>	15%
<i>Somewhat convincing</i>	12%
<i>Not that convincing</i>	12%
<i>Not convincing at all</i>	18%
<i>Not sure</i>	2%

Q16 Here's the last one: Once rare events like "500 -year floods" are happening regularly and sea-levels will rise endangering Georgia's coastline. Do you find this reason very convincing, fairly convincing, somewhat convincing, not that convincing, or not convincing at all to take actions to reduce climate change?

<i>Very convincing</i>	44%
<i>Fairly convincing</i>	11%
<i>Somewhat convincing</i>	11%
<i>Not that convincing</i>	11%
<i>Not convincing at all</i>	21%
<i>Not sure</i>	2%

Q17 In the election for President, did you vote for Republican Donald Trump, Democrat Hillary Clinton, someone else, or did you not vote in the election?

<i>Donald Trump</i>	48%
<i>Hillary Clinton</i>	43%
<i>Someone else / Did not vote</i>	9%

Q18 What is your gender?

<i>Woman</i>	53%
<i>Man</i>	47%

Q19 With which political party do you identify?

<i>Democrat</i>	37%
<i>Republican</i>	39%
<i>Independent</i>	24%

Q20 If you are white, press 1. If African-American, press 2. If other, press 3.

<i>White</i>	62%
<i>African American</i>	30%
<i>Other</i>	8%

Q21 What is your age?

<i>18 to 29</i>	12%
<i>30 to 45</i>	24%
<i>46 to 65</i>	37%
<i>Older than 65</i>	27%

Q22 What is your household's annual income- less than \$20,000, between \$20,000 and \$50,000, between \$50,000 and \$75,000, between \$75,000 and \$100,000, between \$100,000 and \$200,000, or greater than \$200,000, or do you not care to say?

<i>Less than \$20,000</i>	5%
<i>Between \$20,000 and \$50,000</i>	13%
<i>Between \$50,000 and \$75,000</i>	8%
<i>Between \$75,000 and \$100,000</i>	9%
<i>Between \$100,000 and \$200,000</i>	9%
<i>Greater than \$200,000</i>	6%
<i>Don't care to say</i>	51%
