

# PRESS CONFERENCE

## CHEMOURS STOP DUMPING ON US! COMMUNITY SPEAKS OUT AGAINST CHEMOURS ATTEMPT TO DUMP AN EXTRA 4.4 MILLION POUNDS OF GENX IN SOUTHEAST NC

Join Democracy Green and impacted residents of Brunswick County Stewards of the Environment to call out Chemours for the continued targeting of Environmental Justice Communities: Black, brown, and low-wealth neighborhoods as dumping sites for their toxic waste.

Environmental Justice leaders and organizations support the US EPA's temporary reversal of the decision.

We are calling for a permanent reversal on the decision to allow Chemours the authority to dump 4.4 Million Pounds of GenX waste in Southeast North Carolina.
